

## **„Paralingua” corpus. Terms and conditions of use.**

The conditions of use of the „Paralingua” corpus of Polish quasi-spontaneous and expressive speech for the needs of the study of linguistic and paralinguistic features.

The terms and conditions enlisted below are related to any of the corpus components (recordings, annotations and metadata) of the database included in both the DIAL and EMO subcorpora.

1. The recordings and annotations included in the „Paralingua” corpus can be used exclusively for research purposes (non-commercially).

2. Any public usage of the data included in the „Paralingua” corpus as well as any publication or presentation based on the analysis with the use of the data should include the following acknowledgement:

The „Paralingua” corpus was created with the support from the financial resources for science in the years 2010–2012 as a development project at Adam Mickiewicz University Foundation in Poznań (project no. O R00 0170 12, Polish National Centre for Research and Development).

3. Due to the copyright of the corpus authors, any public usage of the data included in the „Paralingua” corpus as well as any publication or presentation based on the analysis with the use of the data should include the following reference:

Klessa, K., Wagner, A., Oleśkiewicz-Popiel, M., Karpiński, M., 2013. “Paralingua” – a new speech corpus for the studies of paralinguistic features. In: Vargas-Sierra, Ch. (Ed.) *Corpus Resources for Descriptive and Applied Studies. Current Challenges and Future Directions: Selected Papers from the 5th Int. Conf. on Corpus Linguistics (CILC2013)*. Procedia – Social and Behavioral Science. 95. (48-58), Elsevier ISSN: 1877-0428.

I hereby confirm that I have read and understood the above terms and conditions and agree to these terms and conditions.
